

Make your own voting paddle to use when you decide something is fair or unfair in each of the *That's Not Fair* videos! Here's how:

1. Colour both Councillor Bug images and then cut out on the dotted line.
2. Using a pencil, trace around one of your Councillor Bug cut-outs onto a piece of construction paper. Cut out the traced shape.
3. Tape one end of a tongue depressor to the back of the construction paper (this is the handle of your voting paddle)
4. Paste one Councillor bug image on one side of the construction paper, and the other Councillor bug image on the other side of the construction paper (it should look like a sandwich with the construction paper in the middle).
5. Watch the *That's Not Fair* series at www.thatsnotfair.ca and vote whenever you see something fair or unfair happening in each story!
Happy voting! ☺
